

Have fun while creating an entry for our Ancient Egyptian Museum day. Please select a project listed below and build it accordingly. Also write a 1/2 to 1 page information sheet about your artifact that will be displayed with your creation.

Ancient Egypt Artifacts:

Artifact1: Build a Pyramid OR a Sphinx

This project requires some household items. Sugar cubes are great for this but you may use whatever you would like! Don't forget the scenery around the Pyramid; what kind of setting would you find a pyramid in? Your pyramid must include a view of the inside.

Artifact2: Canopic Jars

For this project you will need 4 spaghetti jars or cups, clay, and some creativity! You will want to paint them too!

Artifact3: Death Mask

Using your face or another object create a traditional Egyptian Death Mask. The purpose of the death mask was to give the person a face in the afterlife. In addition they allowed them to be recognized and accepted by other people. Depending on the person's social status determined how elaborate the mask was. Who was your person in Egyptian Society?

Artifact 4: Sarcophagus

Recreate a Sarcophagus. Use clay or anything else lying around the house. Be creative and keep in mind that the details signify the person's social status.

Artifact 5: Egyptian Style

Recreate some of the more popular Egyptian jewelry, amulets and headpieces. At least 3 pieces must be made to earn credit.
